OBJECTIVE

I would like to put my analytical skills to work in an environment that allows me to learn and create. I am hoping to further my experience with big data and web development.

HIGHLIGHTS

- Employs mathematical/logical approach
- Good organizational skills for problem-solving
- Can lead as well as work with a group

QUALIFICATIONS

- Excellent PC skills and usage of Microsoft Word, Excel, and Powerpoint
- Basic knowledge of Java, LaTeX, MatLab/Octave, R, SQL
- Fast learner and able to pick up new skills

EXPERIENCE

- Findability Sciences - Analyst October 2015 – February 2017
 - Used SQL to write queries/scripts for a data extraction pipeline
 - Helped a client company visualize their donor behaviors
 - Communicated client needs to front-end developers across time zones
- iGradeEdu - Teacher/Tutor April - October 2015
 - Prepared mathematics presentations for Grades 6 through 12
 - Delivered timed lessons using WebEx
 - Managed startup project in a team environment

EDUCATION

- Massachusetts Institute of Technology (Online with GetSmarter) 2016
Certification for Computational Data Analysis
- University of Massachusetts, Amherst (Amherst, MA) 2009 - 2015
Bachelor of Science: Mathematics
- Quinsigamond Community College (Worcester, MA) 2013 - 2014
Relevant courses:
Analytical Thinking with Programming (CSC 106),
Programming I (CSC 107),
Programming with Objects (CSC 207)

OTHER INTERESTS

Music performance and composition, Word problems, Computer Programming, Game design, Languages, Caring for animals.
