

Recommendation Letter

To whom it may concern,

This letter is written to attest that Varun Nadgir has successfully completed the **Become a Technical Artist** course taught by me and delivered through **ELVTR**.

Throughout the program, Varun consistently demonstrated a strong grasp of the material, actively contributing to class discussions and excelling in labs, assignments, and the final project.

Varun's practical application of these skills was particularly impressive. His work in Python, covering areas like structure and flow, modules and packages, and various programming paradigms, showcased his growing proficiency. Furthermore, Varun demonstrated a strong understanding of rendering principles, including vertex and pixel shaders. His exploration of prototyping, particle FX, procedural systems, and UE5 tools, coupled with his engagement with version control, further underscored his ability to translate theory into practical, real-world applications within the Unreal Engine.

I wholeheartedly recommend Varun for any technical art-related opportunities. His technical proficiency, adaptability, and collaborative spirit make him a valuable asset. I am confident he will continue to achieve great success in his future endeavors.

Ruben Henares, Lead Technical Artist - That's No Moon
